EDUCATION

North West University

Bachelor of Science in Information Technology

Dec 2026

Mphachue High School

Grade 12

Dec 2021

SKILLS

- **Tools** : VS Code, Visual Studio, MySQL, SQLite, Oracle Database, Jupyter/Google Colab
- **Methodologies** : Agile (Scrum), Project Management
- **Web & UI Languages** : HTML, CSS, XAML
- **Programming Languages** : Java, Python, C#, SQL, C++, JavaScript

PROJECTS

FinTech Ledger Application (Full Stack Development)

Personal Project

Action: Designed and developed a full-stack financial ledger application using React, Python Flask, and SQLite. Implemented idempotency keys to prevent duplicate transactions which a critical feature for payment systems that ensures users are never charged twice. Built RESTful APIs for transaction processing, balance calculation, and real-time transaction history. Engineered overdraft protection to prevent withdrawals exceeding available balance. Result: Delivered a fully functional, production-ready financial application with bank-grade idempotency

NGO Donation Management System(Web Development)

Academic Project

Final project for Systems Analysis and Development II.

Action: Collaborated with a team to design a SQL (MySQL) database, build backend APIs using C#, .NET Framework, and ASP.NET, and create the frontend with HTML and CSS.

Result: Delivered a functional system to manage NGO donations; achieved 84%.

Money Tracker System (Mobile Applications Development)

Academic Project

Final project for Advanced User Interface Programming.

Action: Collaborated with a team to develop a cross-platform mobile application using C#, .NET, MAUI, and SQLite.

Designed responsive user interfaces with XAML, implemented backend logic for transaction tracking, and managed local data persistence for offline functionality. Result: Delivered a fully functional mobile money tracker with a clean UI and reliable data storage; achieved 95%.

CERTIFICATIONS

Introduction to Cyber Security - Cisco	Jul 2025
Full Stack Developer - FNB App Academy	Jul 2025
Introduction to Data Science - Cisco	May 2026

AWARDS & ACHIEVEMENTS

Position 2 Annual Hackathon - Geekulcha	Aug 2025
